

In partnership with:

There's been a lot of buzz about the CHIPS and Science Act, which earmarks \$53B nationwide for manufacturing, along with [Senate Bill 4](#) which allocates approximately \$200M in state funding for Oregon.

This could represent a significant opportunity for your manufacturing company.

DATE October 17, 2023

TIME 7:30 AM to 2:00 PM

COST \$50 per person

LOCATION [Prosper Portland](#)

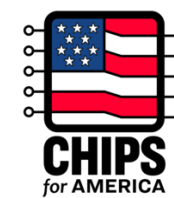

220 NW Second Ave, #200, Portland

REGISTER TODAY

SPACE IS LIMITED

You Will:

- Connect with tier 1 and 2 suppliers to learn about supply chain opportunities in the semiconductor sector
- Discover resources to help you enter or expand sales into the semiconductor supply chain

You Should Attend if You:

- Want to sell to the semiconductor sector
- Want to increase existing sales to the semiconductor sector
- Fabricate or mold metals, plastics or composites
- Are curious about exploring opportunities with the CHIPS Act

Expertise you can count on.

Experts from Oregon business organizations, US Department of Commerce, CHIPS for America, National Institute of Standards and Technology (NIST), as well as state and local government will discuss:

- The CHIPS Act and how those resources funnel down to Oregon manufacturers
- State and local resources that are available to assist with expansion
- STEP grant resources to support overseas travel for trade shows
- US Commercial Service resources to assist with arranging pre-qualified meetings with foreign buyers

We are the economic and urban development agency for the city of Portland. We focus on building an equitable economy by carrying out a comprehensive range of economic development programs that support small business, improve access to workforce training, and create jobs for Portland residents.

We work with partners to drive public attention and resources to different areas of the city, which helps Portland realize capital projects – parks, streetscape improvements, community centers –that would not happen on their own, making it a better place to live for all Portlanders.

OMEP draws on our team's combined 500 years of real-world manufacturing experience to bring a thoughtful problem-solving approach to eliminating obstacles faced by Oregon manufacturers.

We leverage our roots in lean as a business operating philosophy to provide transformational impacts to manufacturers who might not otherwise have access to consulting services. Through on-site implementation, peer-to-peer learning events, and connections to partners, OMEP helps manufacturing leaders and their teams:
